<b>Lacquer used</b>	2 Pack Lacquer	2 Pack Lacquer
<b>Paint used if sprayed</b>	2 Pack Paint	2 Pack Paint

## Cabinet and drawer construction

Cabinets - All of the cabinets are made from MDF with Oak veneered outer and inner, this means every time you open a cupboard you see and feel beautiful oak inside, the MDF core give the cabinets strength and durability and the Oak Veneer gives them a touch of beauty and makes them stand out from the crowd.

Drawers – All our drawers are made of dovetailed oak fronts, sides and backs, coupled with an Oak ply base for rigidity. This makes them stunning to look and practical to use.

They will come with soft close runners as standard apart from when they are too small to accommodate runners.

## Ranges available

We have two main ranges available, our “Pure” and “Premium Ranges”.

**Pure Range** – This is a “Lay on” range designed to look like a more expensive “True In-frame” kitchen.

It features the same great Oak Veneered cabinets and Oak Drawer Boxes, but the top and bottom parts of the frame are built into the door, making construction and cost a lot quicker and cheaper.

Doors are made of water resistant MDF for use in a kitchen.

The Pure Range is available in just our standard D1 shaker door, or our Modern classic doors, it can be painted in any colour and comes with any of our standard hinges.

It is designed to give the amazing In-Frame look but at a price that is very exciting.

**Premium Range** – Featuring the same beautiful Oak Veneered carcasses, and the same Dovetailed Oak drawers, but with a True In-Frame.

The doors and fronts are made using MR MDF or Beech, Please note the centre panel will always be MDF as it is too thin to be a solid piece of wood.

This range is again available with any of our hinges and is stunning.
